SAVUNMA VE HAVACILIK

Issue 1/10 #137, Vol: 24

◆ Turkish Defence Industry in 2010

What has Turkish Defence Industry accomplished in the first decade of the second millennium? What will be the most important projects for TAF over the next 10 years? Where will Turkish Defence Industry turn to in its search for defence exports? Savunma ve Havacılık turns to Undersecretary for Defence Industry Murad BAYAR for the answers to these and many more questions.

◆ Tactical Wheeled Vehicles

Savunma ve Havacılık looks into the requirements, procurement programmes and operational areas for Tactical Wheeled Vehicles in Turkey, and their role as the cornerstone of the Turkish Army's manoeuvrability.

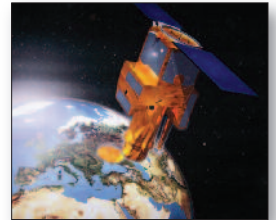

◆ Unmanned Aerial Vehicles

Savunma ve Havacılık takes an in-depth look at the operational areas of TAF's UAVs, and provides an update of the recent technological advances and current/future procurement projects.

◆ Space Technologies

Both Turkey and TAF are looking to the heavens and the potential of space for the future. Savunma ve Havacılık presents an overview of these combined studies and the ongoing projects in the skies.

◆ Status Report: The Project ALTAY

Savunma ve Havacılık presents the Project ALTAY Report concerning the procurement of TAF's MBT.

◆ News RoundUps

S&H will report on individual developments relating to the modernization of the Turkish Armed Forces [TAF] and update issues affecting those activities with news from the industry as well.
